## **DETAILED ACTION**

### ***Specification***

1. The disclosure is objected to because of the following informalities: The disclosure is objected to because of the following informalities: the "Field of the Invention" section on page 2 should not be a U.S. class/subclass, which may change as the claims are amended and/or the U.S. classification system itself is updated and redefined; this section probably should be deleted since a section with a similar heading and in the correct format already appears on page 1 . Also, the "Description of Related Art" section on page 2 contains no information and probably should be deleted since it also seems to be a duplicate heading. Appropriate correction is required.

### ***Response to Amendment***

2. The indicted allowability of claims 9-13 is withdrawn in light of newly discovered prior art. The delay in citing this art is regretted.

### ***Claim Rejections - 35 USC § 102***

3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

4. Claims 9-12 and 14 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Carroll et al (US # 6,356,882 B1).
